Next, **Download the Scanner Drivers** from the Help Menu. Select the Scanner Model that you are installing.

**Please note**, make sure your scanner's USB cable is unplugged from your computer before starting the Scanner Driver Download.

For Panini scanners (except ml:Deal), skip to the next page. For Panini ml:Deal scanner, please see the separate **Panini ml:Deal Installation Guide**.

When the download has completed, select to **Open or Run the Drivers**. If prompted with "Do you want to allow this app to make changes to your device?" click **Yes**. For non-Panini scanners, skip to page 7.

**Please note**, this page is only for Panini scanners. If you are installing a non-Panini scanner skip to page 7.

After you select to download the Panini drivers on the previous page, a ZIP file will download. Open the ZIP file. The ZIP file will initially only display one folder **“Panini\_Universal\_Installer.”** Open that folder.

That folder, once opened, will look like this page. Open the **“setup”** application, the item highlighted blue in this screenshot. Continue to the next page.

Setup - TellerScan Combined Driver

### Welcome to the TellerScan Combined Driver Setup Wizard

This will install TellerScan Combined Driver version 17.02 on your computer.

If you downloaded this driver directly from Digital Check, you may require more software from your bank or other financial institution.

Click Next to continue, or Cancel to exit Setup.

On the Scanner Driver Setup Wizard, click the **Next** or **Install** button on each screen when available. When the Drivers are finished installing, click the **Finish** Button.

**Please note**, depending on which drivers you are installing, the Setup Wizard might look different.

After the Drivers are installed, you may plug the Scanner's USB cord into the computer.

# Thank You
